Experience

Innowinds Inc.

Jun 2025 – Present

Full-Stack Software Engineer

- Sole developer leading end-to-end development of **Bachpankart.com** from concept to production
- Own full lifecycle: requirements, architecture, frontend, backend APIs, database design, and deployments
- Partner with founders on roadmap planning, feature prioritization, and strategic decisions
- Participate in budget planning, infrastructure cost discussions, and vendor evaluation
- Lead client meetings translating business needs into scalable technical solutions
- Built UTM-based tracking and analytics pipelines to monitor user behavior and conversions
- Improved reliability, performance, and scalability through system optimization

Kanz IT (Internship)

Jan 2023 – Aug 2023

Junior Software Engineer Intern

- Contributed to custom mobile and web application development
- Assisted in backend development, API integration, and feature implementation
- Collaborated with senior engineers to debug issues and improve stability

D3Code (Internship)

Jan 2020 – Sep 2020

Junior Full-Stack Engineer Intern

- Worked on custom website development projects
- Implemented frontend interfaces and backend functionality
- Gained hands-on experience with full-stack workflows

Education

Northeastern University

Sep 2023 – Dec 2024

Master of Science in Information Technology
